

Hyalofast Masterclass & Bio-Skills lab 2025

March 25th 2025

NANO Medical GmbH
Wasserweg 11
Gross Gerau, Germany

Course Description

We are delighted to invite you to the 2025 Hyalofast Masterclass & Bio-skills Lab. This is a 1-day course which offers a comprehensive overview of the one-step cartilage repair technique using Hyalofast with a focus on the arthroscopic approach.

Attendees will have the opportunity to listen to concise lectures and participate in case discussions. All participants will have the opportunity to translate techniques taught in the course through a hands-on cadaveric lab with faculty. Attendees will develop knowledge, skills and abilities related to the treatment of cartilage lesions via safe and effective use education.

Course Logistics

The meeting will be held in Gross Gerau (Frankfurt) and convene with dinner on 24th March followed by didactic and lab sessions on 25th March (9:00-16:30).

Course fees and the course dinner on the 24th of March will be covered by Anika. Travel and accommodation will be delegate/distributor responsibility. Rooms must be reserved under the Anika room block. Further details can be obtained from your Anika Business Development Partner or from Chiara Battalliard and Claudia Santon (details below).
